

# EXPERIENCE PERFORMANCE X 3

Designed for the serious golfer, the Difference 3Z delivers a truly unique playing experience on multiple levels. All three "zones" of the shoe—the outsole platform, the breathable GORE-TEX™ waterproof linings, and our new Ergo-Fit comfort system—were engineered independently, then fused together, to maximize performance and comfort. Discover the difference of our durable TPU injection outsole, featuring updated Stabilizer™ technology for enhanced stability and cushioned foot support. Experience golf's first ergonomic fit—the result of precision molding our "Ergo" last to each footbed and each duo density bi-fit insole. Indulge your feet with the comfort of sleek, full-grain leather uppers integrated with breathable GORE-TEX™ waterproofing. From the outside in, down to the smallest detail, this is the shoe for those seeking the latest in performance technology.
